We're giving you more time.

HSM SECURIO AF-line: Innovative, convenient and time-saving.
The autofeed paper shredders of the AF-line with Nanogrip-Technology combine functionality and ease of use. For the reliable and easy shredding of stacks of paper and individual sheets of paper.

HSM SECURIO AF150

Destroy stacks of paper effortlessly at your desk – and save time!

The HSM SECURIO AF150 offers proven SECURIO quality with the innovative autofeed function: it conveniently and securely shreds stacks of paper of up to 150 sheets and single sheets of paper. Simply insert the stack of paper – and let the shredder work!

Lock-and-Go function with up to 300 sheets of paper

Mobile on castors

Autofeed paper intake with up to 150 sheets

HSM SECURIO AF300

Automatically shred – with the Lock-and-Go function!

The HSM SECURIO AF300 with autofeed paper intake demonstrates the heightened security protection it provides with its lockable stack: inserted paper stacks are protected against unauthorized access. With exceptional SECURIO "Made in Germany" quality, the AF300 can shred simultaneously up to 300 sheets at a time while shredding single sheets efficiently.

It is possible to secure the paper stack inserted into the magazine against unauthorized access by using the **Lock-and-Go function**. To this end, an individual security code is saved on a USB stick/media per stack processing. After starting, the shredding process can only be interrupted by the owner of the USB medium.

More data protection through the Lock-and-Go function

HSM SECURIO AF500

High level of security – large time savings – maximum comfort!

The HSM SECURIO AF500 is a central security station for large offices/departments. With an AutoFeed capacity of 500 sheets, the stacked paper tray with Lock-and-Go function safeguards against unauthorized access all while continuously shredding large volumes of paper.

Lock-and-Go function with up to 500 sheets of paper

Multifunction element for intuitive operation

Parallel operation: Autofeed and manual feed of paper possible

HSM Nanogrip-Technology

Nanogrip for reliable sheet intake: The document shredder with autofeed has a specially developed intake and transport rollers which use **Nanogrip-Technology**. This enables sheet after sheet to be pulled in securely from the stack of paper.

The specially hardened cutting rollers made from solid steel are **impervious** to staples and paper clips and guarantee a **long service life**.

During the autofeed stack processing, it is possible to **manually feed paper and CDs** (CDs only on L3 models) at the same time.

The benefits of the HSM SECURIO AF document shredders with automatic paper feed:

- "Made in Germany" quality
- Solid steel cutting rollers
- Time-saving autofeed document shredding
- Continuous operation
- Nanogrip-Technology for reliable sheet intake
- Parallel operation: Autofeed and manual feed of paper possible
- Energy-saving thanks to EcoSmart
- Anti-paper jam function
- Quiet operation
- Automatic start/stop
- Effortless emptying
- Level indicator through inspection window
- Mobile on castors
