

# Achieve higher productivity, profits and image quality

Driven by Fiery® technology, the imagePRESS Server F200 delivers fast processing speeds, outstanding color, time-saving workflows and high-performance variable data capability for the imagePRESS C800/C700/C60 Series.

## ***Produce consistent and accurate color***

- Gain complete control of color quality and produce repeatable color every time with professional-level color-management tools.
- Accurately reproduce spot colors to achieve the best possible match for corporate colors every time.
- Create prepress proofs, preflight and troubleshoot jobs and make last-minute edits before printing to minimise waste and rework.

## ***Work efficiently***

- Simultaneously print, RIP and spool jobs in the queue to minimise print engine downtime.
- Use advanced queue management to meet critical customer turnaround times and quickly respond to schedule changes.
- Manage color and prepare jobs for multiple Fiery Driven™ printers with Fiery Command WorkStation®.
- Work faster with fewer keystrokes using the visual, intuitive interface.
- Reduce reprints and waste by catching errors with the state-of-the-art page-by-page preview.
- Prepare jobs for printing with intuitive make-ready tools.

## ***Deliver profitable solutions***

- Provide value-added services with Fiery fast variable data printing (VDP) capability for high-margin personalised printing.
- Support industry-leading VDP formats such as PPML and PDF/VT as well as popular VDP composition software including built-in Fiery FreeForm™.

## ***Simplify business with easy integration***

- Reduce touch points and produce jobs profitably using certified JDF technology as a gateway to EFI™ solutions such as Fiery Central, Digital StoreFront® and MIS/ERP business software.
- Gain a native end-to-end PDF workflow that improves the consistency and flexibility of printed output from design to print with support for Adobe® PDF Print Engine®.
- Manage one or more Fiery Driven™ digital print engines and submit jobs using the same familiar user interface with full integration of Agfa® :Apogee™ Prepress Workflow and Kodak® Prinergy® Workflow.
